

GeoRipper® 720

The GeoRipper 720 is a commercial-grade, ultra-portable, handheld trencher.

Used for: irrigation, low-volt lighting, erosion control, fiber optic, root barrier, perimeter fence, gas/electric drops, and many more applications.

GeoRipper trenches quickly and efficiently in every type of soil, is able to cut a tight radius, and causes little turf or ground disturbance to allow for fast back-filling and quick site cleanup.
