# THE CENTRAL DIFFERENCE

## “ SINCE 1990

We have earned the reputation of a valuable business partner to over 15,000 contractors throughout the United States and Canada. I encourage you to use the information you learn and hold us accountable to exceptional customer service. If you have any questions, comments, or concerns, please don't be shy and let us know. Listening to the needs of our customers has been one of the keys to our success.

As a former contractor, I knew the need for a better distributor existed and that is why we are in business today. We will continue to listen to you and do what we can to help your business grow. **We know that your success is our success.**”

**Bernardo Luciano**  
Central Turf & Irrigation Supply, Inc.

### ► INVENTORY

Central has the largest selection of in-stock inventory in the industry—with a focus on local. This means we have the right products, at the right time, across every category; we are truly one-stop shopping.

### ► FLEXIBLE CREDIT LINES

Central offers the best financing terms in the industry. We are a family-owned company, not a Wall Street corporation focused only on profit. We'll work with you to make sure you can get what you need, when you need it.

### ► FLEXIBLE TERMS

We understand the seasonality of the industry and the cash flow requirements for your business. With early order programs throughout the year, we offer you a variety of terms so that you can **choose what works best for you.**

### ► SAME-DAY DELIVERY

Central offers same-day delivery services—we'll meet you there. We have **more vehicles per branch than any other green industry distributor** including flat bed trucks in all sizes and moffet-equipped trucks.

### ► SUBJECT MATTER EXPERTS

Whether you need help with technical troubleshooting, training for your team, or recommendations on the best products, you can rely on us. With Subject Matter Experts across every category, plus technical call centers, **Central will help you find the right solution.**

# YOUR GOLF TEAM

## ABOUT US

Our carefully crafted team of Golf Specialists all have one crucial trait in common: Passion. We know firsthand the level of passion and effort that is required in order to keep your course maintained and looking great all season, every season. We can help meet all of your needs through the use of cutting edge, efficient and impactful products to achieve industry leading results. Pair this alongside our years of experience & industry knowledge to find the right solution to any challenge that you may face. To get ahead of the competition, you need to set yourself apart. That's why Central Golf does things a bit differently – we're a Distributor that not only works as hard as you do, but only succeeds when you do.

**Jay Swanson** CID, CGIA, CLIA, CIT

**Director of Golf & Public Agency**

Jay Swanson, Director of Golf & Public Agency Sales, has over 20 years in the industry with distribution and manufacturing. With a B.S. in Environmental Science and multiple National Irrigation Association Certifications, he specializes in Golf and Commercial Irrigation design, specification and sales. His passion is Environmental Science and Water Conservation.

**Contact:**  
jswanson@centraltis.com

**Jeff Miller**

**Regional Sales Manager - Southeast Golf**

Jeff, brings 20 years of golf course management experience to Central. His work experience as a Golf Course Superintendent ranges from construction & grow-in, to daily maintenance at semi-private and private facilities. With a bachelor's degree from Michigan State University in Turfgrass Management, his passion for golf course properties and those who maintain them has no limit. Jeff stands ready to aid others in their pursuit of agronomic excellence.

**Contact:**  
(231) 357-5747 | jmiller@centraltis.com

**Mac Johnson**

**Account Leader - Golf**

Mac is a graduate of Abraham Baldwin Agricultural College, with a Bachelors of Science in Environmental Horticulture specializing in Golf Course and Turf Management. Based in South GA, with 8 years of experience in the industry, he specializes in agronomics, irrigation services, and sales. As a former assistant superintendent, his passion comes from assisting other turf professionals by finding solutions to their problems and helping one another be better stewards of the land.

**Contact:**  
(478) 256-5799 | mjohnson@centraltis.com

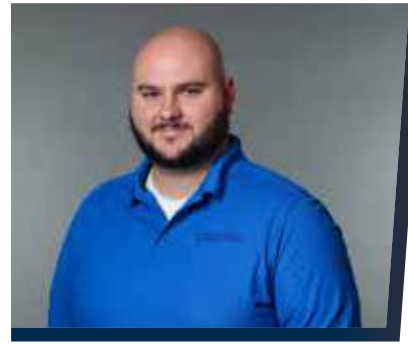

**Travis Crosby**

**Southeast Regional Golf Service Manager**

Travis is a true asset to the team as he brings over 15 years of industry experience, a degree in Golf Course Management, certifications in Golf Course Mechanics and a former golf course superintendent. Based in South Carolina, he specializes in golf course construction, service and sales. His passion is helping customers achieve their goals of green, healthy turf.

**Contact:**  
(770) 539-3701 | tcrosby@centraltis.com

**Chris Bracken**

**Account Leader - Golf**

Chris comes to Central TIS as a graduate of the Rutgers Golf Turf Management Program and over 10 years of combined lawn care & golf course management experience. Based in Connecticut, his passion in the industry has always been golf courses. His focus on customer service, architecture and the challenges of creating a healthy playing surface for course members makes him a true asset to the Central team.

**Contact:**  
(203) 822-4883 | cbracken@centraltis.com

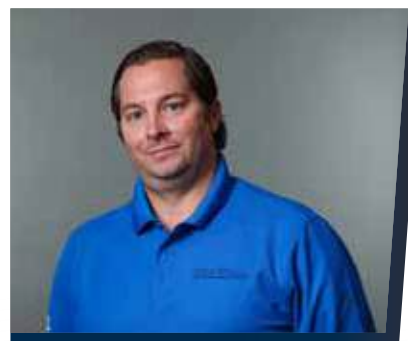

**Jon Van Dyke** CID Certified

**Account Leader - Golf**

Jon, with degrees in Business and Mechanical Engineering, has spent the last 13 years in the industry. Based in Latham, NY, he specializes in Golf and Commercial Irrigation design, specification, agronomics and sales. Achieving his CID for Commercial in 2017, he has designed golf, commercial and athletic field irrigation systems. His passion is turf and agronomy with a focus on making sure the customer receives the service and support they deserve.

**Contact:**  
(518) 713-8363 | jvandyke@centraltis.com

**Michael Yannetta**

**Northeast Regional Golf Service Manager**

Michael comes to Central TIS with over 17 years of experience in the industry. Based in New Jersey, Michael is a former owner of an irrigation company that specialized in residential service, commercial service and installations. His passion for the turfgrass industry and his extensive experience servicing many golf course systems over the years, make him extremely knowledgeable and an asset to Central TIS and its customers.

**Contact:**  
(201) 360-1122 | myannetta@centraltis.com

**Brian Giunta**

**Account Leader - Golf**

Brian joins Central TIS with over 14 years of combined experience in lawn and golf course management and is a graduate of the Rutgers Golf Turf Management Program. Based in New Jersey, he specializes in budgeting, as well as chemical and fertility planning. As a former superintendent, Brian brings extensive industry knowledge to the Central team, with a passion for helping customers achieve high quality course conditions.

**Contact:**  
bgiunta@centraltis.com

*Industry Associations that our Team is a part of:*

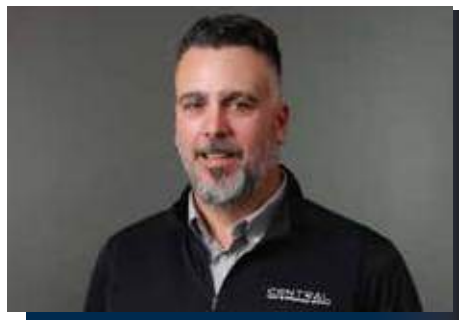

**Austin Marsteller**

### Chemical Category Director - Turf

Austin has a decade of experience in the green industry, a degree in Turfgrass Science from Penn State University and an MBA from Louisiana State University-Shreveport. His career has been heavily focused in turf and ornamental on the manufacturer side, and most recently in agriculture.

Specifically bio stimulants, adjuvants, and specialty fertilizers. Austin works closely with all the employees and partners of Central to provide superior service and solutions to our turf and ornamental customers.

**Ryan Batz**

### Fertilizer Category Director - Turf

Ryan has a B.S. in Turfgrass Management from Penn State University. He brings years of experience to the team as a GCSAA Class A Member with 6 years as the US Technical Director for Ferti Technologies, along with 11 years as a Golf Course Superintendent and the former owner/operator of GreenKeepers Lawn Care. Ryan has also been in sales as a Golf Technical Sales Rep in the NY Metro area. Ryan embodies the Central Difference by holding a board position for a non-profit camp for underprivileged youth and sits on a Project Advisory Board for Minimizing Fertilizer Runoff at Candlewood Lake.

**Doug Armour**

### Commercial Irrigation Technical Manager

Doug Armour is certified by the Irrigation Association as a Landscape Irrigation Water Manager. In addition, he holds certifications with Hunter, Rain Bird, and has been factory trained with Tucor. He is an excellent resource for any technical questions about irrigation systems and troubleshooting systems that are not working properly.

**Dave Shane**

### Commercial Sales Manager - Irrigation

Dave Shane has more than three decades of experience in the irrigation industry in both distribution and manufacturing roles. He specializes in commercial project solutions with an emphasis on controls to meet complex requirements. He is an excellent resource for any technical questions about irrigation systems and finding the right solutions for designing efficient irrigation systems.

**Myles Buckley**

### Turf Manager - New England

Myles Buckley is Central Turf & Irrigation Supply's New England Turf & Agronomic Manager. Myles has more than 30 years of experience in the green industry. He holds a supervisory license for ornamental turf in multiple states.

Myles is experienced in solving the most complicated turf issues and has put together custom training for our customers. His diverse background makes him an excellent resource to help grow your business.

**Greg Johnson**

### Turf Manager - Southeast

Greg has 25 years in the green industry. He started out by treating lawns, trees and shrubs before opening two successful businesses in the Atlanta area. Greg joined the Central team in 2019 and has since strived for excellence & received numerous awards in sales; Employee of the Year and Branch Manager of the Year. He also holds Category 24 and 41 Licenses with the Georgia Department of Agriculture, is a member of the Urban Ag Council and works with the University of Georgia training licensed applicators. Greg is ready to help you take your turf and ornamental category to the next level.

**Eric Cummings**

### Drainage Category Director

Eric has a B.A. Degree from West Chester University in Philadelphia, along with 25 years of experience in the industry. He spent 5 years as a District Sales Manager for NDS prior to joining Central. While at NDS, he built a detailed knowledge of both residential & commercial drainage. Eric was responsible for sales in his territory, in addition to education on drainage to both contractors and distributors. He brings extensive product knowledge to Central, but also market intelligence, technical prowess, and an overall grasp on all that goes into distribution of drainage products.

**Kevin Adams**

### Regional Lighting Business Manager

Kevin Adams has over a decade of field experience and is continually building upon his expertise through trainings on new innovative lighting products and technical system knowledge. He has a passion for sharing his knowledge with contractors in addition to the Central Team. Whether it's a technical/design question, sharing strategies that help maximize lighting projects, or helping source the right products for the job, Kevin is ready to help boost your business.

**Travis Holbrook**

### Category Director - Outdoor Living/Hardscape

Travis Holbrook has nearly 30 years of experience in the green industry. He has spent much of his career in distribution with a heavy focus on outdoor living and hardscapes and outdoor audio. His industry experience also includes procurement, distribution, key account management and sales, providing contractor with a truly one stop shop experience. Travis has a passion to provide green industry professionals the tools needed to sell and install from property line to property line.

# PRE-EMERGENT HERBICIDES

## DON'T WAIT UNTIL IT'S TOO LATE

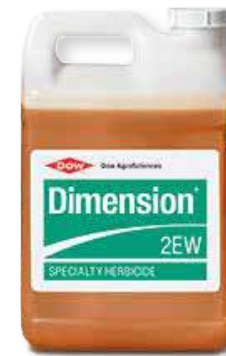

Apply pre-emergent control before weeds germinate and establish themselves on your course. Selecting the right products can limit the time and money you spend later trying to remove stubborn fully established weeds.

## LEARN MORE ABOUT PRE-EMERGENTS

## PRE-EMERGENT HERBICIDES

### Dimension 2EW

#### FEATURES:

Active Ingredient: Dithiopyr

- » Pre-emergent control of crabgrass and more than 45 other grassy and broadleaf weeds including bittercress, spurges, oxalis, chickweed, poa annua and goosegrass
- » Early post control of crabgrass
- » Non-staining
- » Can be applied to turf, landscapes, and bare ground for an ideal whole-site solution

### Specticle FLO

#### FEATURES:

Active Ingredient: Indaziflam

- » Broad-spectrum control of key grassy weeds and more than 60 broadleaf weeds
- » Extended residual control of poa annua
- » Longer residual control means fewer applications and reduced fuel and labor costs
- » Low use rates

### Prodiamine 4L

#### FEATURES:

Active Ingredient: Prodiamine

- » Low use rates provide efficient control of crabgrass, poa annua, goosegrass and key annual broadleaf weeds
- » May be applied for season long control

### Oxadiazon SC

#### FEATURES:

Active Ingredient: Oxadiazon

- » Single, pre-emergence application delivers season-long control of weeds and grasses via shoots of target plants
- » Will not inhibit turf root growth or recovery, ideal for springing, no damage to labeled ornamentals

### SureGuard

#### FEATURES:

Active Ingredient: Flumioxazin

- » Long residual pre-emergent control in landscape beds
- » Broad spectrum including tough-to-control weeds
- » No yellow color, odor, or concerns with off-target movement and volatility

### Kerb® SC T&O

#### FEATURES:

Active Ingredients: Pronamide

- » Pre-emergence and early post-emergence control of many winter annual and perennial grasses on golf courses
- » Aids in removal of perennial ryegrass from warm-season grasses in spring transition
- » Easy-to-apply liquid formulation uses pints per acre

### Bensumec™ 4LF Pre-Emergent Grass & Weed Herbicide

#### FEATURES:

Active Ingredients: Bensulide

- » Control of annual grasses, including crabgrass, Poa annua, and goosegrass
- » For use on established Bahiagrass, bentgrass, fescue, perennial bluegrass, zoysiagrass
- » Use on golf course greens, tees, and bentgrass fairway

### Coastal

#### FEATURES:

Active Ingredients: Imazaquin, Prodiamine, Simazine

- » Broad-spectrum, pre- and post-emergent broadleaf and grass weed control
- » Excellent resistance management tool
- » Low lateral mobility
- » Most economical poa annua control available

# POST-EMERGENT HERBICIDES

## REMOVE UNSIGHTLY WEEDS, ALL WHILE PRESERVING THE QUALITY OF YOUR TURF

If post-emergent weeds have become established in your turf, it's time for a solution. Stop wasting valuable resources using inefficient products to tackle these challenges. Learn which products will work best for the type of weeds you have.

## LEARN MORE ABOUT POST-EMERGENTS

### Speedzone EW

#### FEATURES:

**Active Ingredients:** MCPP, Dicamba, Carfentrazone, 2,4-D

- » Controls 90+ broadleaf weeds
- » Rainfast in 3-4 hours
- » Fast visual response

### Katana

#### FEATURES:

**Active Ingredients:** Flazasulfuron

- » Kills Poa annua, ryegrass, tall fescue, and the toughest broadleaf weeds in turf
- » Works in cooler temperatures
- » Highly selective in seashore paspalum, Bermuda, zoysia, centipede and buffalo grasses

### Speed Zone Southern

#### FEATURES:

**Active Ingredients:**

2,4-D, 2-ethylhexyl ester, Mecoprop-p, Dicamba, Carfentrazone- ethyl

- » Proven to provide fast, dependable control of broadleaf weeds, including dollarweed, creeping beggarweed, ground ivy, and spurge
- » Highly selective in both warm- and cool- season turfgrasses
- » Rainfast in three hours

### Negate

#### FEATURES:

**Active Ingredients:** Rimsulfuron, Metsulfuron methyl

- » Effective Against: poa annua, poa trivalis, ryegrass, bentgrass, clovers, dandelion, henbit, chickweed, wild onion & wild garlic, spurge
- » Broadest spectrum of control within the ALS inhibitor class of chemistry
- » Outstanding over-seeded Bermudagrass transition and Zoysiagrass maintenance with superior cost effective performance

### Avenue™ South Broadleaf Herbicide

#### FEATURES:

**Active Ingredients:** 2,4-D Dicamba, Penoxsulam, Sulfentrazone

- » Delivers fast broadleaf control in the South's warm weather and sensitive southern grasses
- » Controls more than 90 broadleaf weeds including clover, dollarweed, spurge, and Virginia buttonweed
- » Residential and commercial, golf courses (fairways and roughs), recreational areas

### Dismiss

#### FEATURES:

**Active Ingredient:** Sulfentrazone

- » Excellent control of yellow and purple nutsedge and horsetail
- » Kyllinga suppression
- » Easy-to-use water-soluble formulation
- » Rainfast 4 hours after spraying
- » Registered for use on numerous cool- and warm-season grasses

### Q4® Plus Turf Herbicide for Grassy & Broadleaf Weeds

#### FEATURES:

**Active Ingredients:** Quinclorac, 2,4-D, Sulfentrazon, Dicamba

- » Single product option to control crabgrass, yellow nutsedge and other broadleaf weeds
- » Highly selective on cool-season and listed warm-season turfgrasses
- » Rapid visual response and has a one-week reseeding interval for most listed turf

### Certainty®

#### FEATURES:

**Active Ingredient:** Sulfosulfuron (75%)

- » Selective, post-emerge weed control in warm-season turf and ornamentals
- » Flexibility to be applied to a wide range of warm-season turfgrasses
- » For use in residential and commercial sites, sod farms and certain golf course applications including native warm-season grass sites

POST-EMERGENTS

### Quinclorac 75 DF

QUALI-PRO

#### FEATURES:

Active Ingredient: Quinclorac 75%

- » Dependable post-emergent control of both broadleaf and grassy weeds in a wide variety of turf species
- » Use on residential and commercial, golf courses, sports fields and sod farms

### Pylex

BASF  
The Chemical Company

#### FEATURES:

Active Ingredient: Topramezone

- » Unmatched performance on difficult-to-eliminate weeds such as bermudagrass and goosegrass in cool-season turf as well as excellent control of nimblewill, crabgrass, clover, speedwell, and others
- » Safe for most cool and warm season turfgrasses
- » Readily absorbed by leaves, roots and shoots

### Acclaim Extra

envu

#### FEATURES:

Active Ingredient: Fenoxaprop

- » Offers reliable post-emergent control of crabgrass and goosegrass without harming cool season turf
- » Rainfast in one hour
- » Most effective when weeds are young and actively growing

### Millennium Ultra 2

Nufarm

#### FEATURES:

Active Ingredients: Clopyralid, Dicamba, 2,4-D

- » Excellent control of the hardest-to-kill weeds including thistle and Virginia buttonweed
- » Weeds "melt" out of the turf
- » Innovative chemistry for rapid response and maximum performance
- » Unparalleled clover control

# NON-SELECTIVE HERBICIDES

NON-SELECTIVES

## FOR A FULL ATTACK ON WEEDS

Work together with a Central expert to determine how to control tough weeds and use non-selective herbicides in areas where you do not have delicate ornamentals to protect.

## LEARN MORE ABOUT NON-SELECTIVES

### Roundup QuikPro

#### FEATURES:

**Active Ingredients:** Glyphosate, Diquat

- » Visible results in as little as 24 hours
- » Quick uptake speeds weed-killing power right to the root, where it can't wash away
- » Rainfast in one hour
- » Quick burndown and complete control, roots and all, reduce hassle of customer complaints and callbacks

### Cheetah Pro

#### FEATURES:

**Active Ingredient:** Glufosinate Ammonium

- » Non-selective, post-emergence herbicide provides fast, effective control of the toughest broadleaf and grass weed challenges
- » Works on resistant glyphosate and other herbicide classes
- » Minimal soil residual, which makes it an effective pre-plant treatment for turf, ornamentals, and greenhouses

### Ranger Pro

#### FEATURES:

**Active Ingredient:** Glyphosate

- » Will kill many annual weeds, perennial weeds, woody brush and trees. It is formulated as a water-soluble liquid with surfactant, therefore no additional surfactant is needed. Moves through the plant from the point of foliage contact to and into the root system. It's absorbed into soil and breaks down naturally, and therefore not spread through the ground and kill neighboring plants.

# INSECTICIDES & NEMATOCIDES

**PESTS DON'T NEED TO BE A PEST FOR YOUR MEMBERS ANY LONGER**

Find a systematic approach to controlling surface and subsurface pests. Learn how the right products can provide season-long control.

**LEARN MORE ABOUT INSECTICIDES**

INSECTICIDES

INSECTICIDES

### Acelepryn

#### FEATURES:

**Active Ingredient:** Chlorantraniliprole

- » Season-long control of every key turf-damaging white grub species
- » Season-long control of caterpillars including black cutworms, sod webworms and fall armyworms
- » Excellent billbug and annual bluegrass weevil control

### Suprado

#### FEATURES:

**Active Ingredient:** Novaluron

- » A brand-new class of chemistry with a unique mode of action to fight against annual bluegrass weevils
- » Effective Against: Annual bluegrass weevil larvae, billbug larvae, turf caterpillars, white grubs, chinch bug larvae

### Tetrino

#### FEATURES:

**Active Ingredient:** Tetraniliprole

- » Season-long control of white grubs with a single application
- » Fast-acting systemic control of all ABW larval stages
- » Flexible use rates and application timing to fit any agronomic program, allowing for a preventive or early curative approach

### Imidacloprid T&O 2F

#### FEATURES:

**Active Ingredient:** Imidacloprid

- » Low use rates, application flexibility
- » For systemic control of soil inhabiting pests in turfgrass and landscape plantings
- » Effective against: southern masked chafer, northern masked chafer, Japanese beetle, European chafer, European crane fly, green June beetle

### Arena

#### FEATURES:

**Active Ingredient:** Clothianidin

- » Controls pyrethroid-resistant chinch bug, without increasing the level of pyrethroid resistance
- » Controls white grubs, including Japanese beetle and masked chafers, plus other thatch and surface feeding insects
- » Does not require immediate watering-in after application

### Triple Crown Golf

#### FEATURES:

**Active Ingredients:** Zeta-Cypermethrin, Bifenthrin, Imidacloprid

- » Powerful chemistry in an advanced suspo-emulsion formulation
- » By eliminating the need to tank mix multiple products to control above- and below-ground pests, Triple Crown helps save time, money and shelf space.
- » Controls over 30 pests

### Indemnify

#### FEATURES:

**Active Ingredients:** Fluopyram

- » Controls key plant parasitic nematodes.
- » Can be applied on all areas of play (greens, tees and fairways)
- » Improves root growth, translating to better playability with improved wear tolerance
- » Sting, root-knot, ring, Anguina pacificae, and has activity on many other key nematode species

### Fipronil 0.0143G Broadcast

#### FEATURES:

**Active Ingredient:** Fipronil 0.0143%

- » Control of existing and prevention of new fire ant infestations in residential, commercial, golf course/recreational turfgrass and landscape beds
- » Single application delivers up to one year of reliable fire ant control
- » Works by contact and ingestion and in all weather conditions

# FUNGICIDES

**EVERY SEASON HAS A UNIQUE SET OF CHALLENGES ON THE TURF YOU MANAGE**

If you haven't already put your greens on a preventive fungicide program, this is the opportunity to do so. There are many options available and what to choose depends on temperature, humidity, and other environmental factors.

**LEARN MORE ABOUT FUNGICIDES**

## Pedigree

**FEATURES:**

**Active Ingredient:** Flutolanil

- » Provides turf professionals the same proven performance as granular flutolanil in an easier-to-handle liquid formulation.
- » Systemic disease control of brown patch, brown ring patch, fairy ring, red thread, pink patch, yellow patch, gray snow mold, large patch, and leaf and sheath spot on turf

## Traction

**FEATURES:**

**Active Ingredients:** Fluazinam, Tebuconazole

- » Control challenging diseases: anthracnose, dollar spot, brown patch and snow mold
- » Works via contact and systemically within the plant, controls 19 turf diseases
- » Proprietary FRAC 29 + FRAC 3 combination that supports disease resistance management programs

## Kalida

**FEATURES:**

**Active Ingredient:** Fluindapyr, Flutriafol

- » Rapid uptake, longevity, and controls the toughest diseases
- » Complete protection against a wide spectrum of tough diseases at the same time
- » FRAC 7 + FRAC 3 Fungicide

## Serata

**FEATURES:**

**Active Ingredient:** Picarbutrazox

- » Provides control of key Pythium diseases commonly found in warm - and cool - season turf grasses, including pythium root rot, pythium root dysfunction, pythium blight and pythium damping off.
- » No known cross resistance between it and other oomycete chemistries, making it the new standard for pythium control and resistance management on golf courses, industrial lawns and commercial sites.

### Fame SC

#### FEATURES: —————

**Active Ingredient:** Fluoxastrobin, Tebuconazole

- » A broad-spectrum fungicide for the control of certain diseases – including snow mold – in turf and ornamentals-industrial lawns and commercial sites
- » Works by interfering with respiration and sterol synthesis in plant-pathogenic fungi, and is a potent inhibitor of spore germination and mycelial growth

### Fore 80 WP

#### FEATURES: —————

**Active Ingredient:** Mancozeb

- » Multi-site enzyme inhibitor — helps manage disease resistance
- » Preventive control of brown patch and 11 other diseases
- » Excellent algae control product
- » Rainshield technology - Improves effectiveness under heaviest disease pressure conditions

### Kabuto

#### FEATURES: —————

**Active Ingredient:** Isofetamid

- » Liquid formulation featuring isofetamid
- » Provide excellent control of Spring dead spot
- » Preventative and curative control of dollar spot, including control of certain carboxamide-resistant dollar spot populations

### Mefenoxam 2 AQ

#### FEATURES: —————

**Active Ingredient:** Mefenoxam

- » Formulated to provide systemic control of root and stem diseases caused by Pythium and Phytophthora spp. as well as foliar diseases such as downy mildew
- » Water-based formula with low odor
- » Can provide protection for up to 3 weeks

### Tekken

#### FEATURES: —————

**Active Ingredients:** Isofetamid, Tebuconazole

- » Dependable control of 21 of the most problematic diseases in turf, including dollar spot, brown patch, and anthracnose
- » Uses two active ingredients to provide two different modes of action to help manage resistance
- » Delivers broad-spectrum control for up to 28 days

### Union

#### FEATURES: —————

**Active Ingredients:** Azoxystrobin, Cyazofamid

- » Combines two powerful active ingredients to deliver exceptional performance in a single fungicide
- » Long-lasting residual control
- » Broad spectrum

### Enclave

#### FEATURES: —————

**Active Ingredients:** Chlorothalonil, Iprodione, Thiophanate Methyl, Tebuconazole

- » Broad-spectrum fungicide
- » Long-lasting protection from anthracnose, brown patch, dollar spot, and snow mold
- » Safeguards your susceptible turfgrass with multi-site protection

### Fosetyl-Al 80 WDG

#### FEATURES: —————

**Active Ingredient:** Aluminum tris

- » Stimulates defense mechanisms, enhances plant vigor
- » Single application delivers up to 30 days protection
- » Foundation to unsurpassed summer stress control
- » Effective against: pythium blight, pythium root rot, yellow tuft, phytophthora root rot

# PLANT GROWTH REGULATORS

## PLANTS GET STRESSED OUT ON THE INSIDE TOO

While plants need sun, water, oxygen, and nutrition to grow they also need internal regulation to control their growth, enlargement and health. Whether you are looking for growth promoting, or growth inhibiting products, Central has you covered.

LEARN MORE ABOUT GROWTH REGULATORS

**QUALI-PRO**

### Anuew EZ (Liquid Formulation)

#### FEATURES: —————○

**Active Ingredient:** Prohexadione Calcium

- » More active and longer lasting on cool-season turf
- » Faster regulation in warm-season turf
- » Helps evenly regulate Poa in mixed stands
- » Improves appearance and playability on greens with bermudagrass mutations
- » Supports seedhead suppression

### T-Nex

#### FEATURES: —————○

**Active Ingredient:** Trinexapac-ethyl

- » Reduces the growth of grasses, reducing your time with mowing
- » Mixes with water completely, and it can be used with other pesticides and liquid fertilizers
- » Minimizes the need for edging of turfgrass along sidewalks, curbs, parking lots, driveways, flower beds, fences and around posts, storage sheds and trees

**QUALI-PRO**

### Pac-Low

#### FEATURES: —————○

**Active Ingredient:** Paclobutrazol

- » Systemic plant growth regulator that prevents non-residential turf-grass from growing for 6-8 weeks after applying the product
- » Suppression of poa annua by reducing its growth and competitiveness
- » Improves the performance of fertilizer that is applied for up to 12 weeks, reduces scalping. Even controls the development of some grasses after prolonged use

**QUALI-PRO**

# PREMIUM FERTILIZERS

HUDSON VALLEY™  
*Natural*

## PREMIUM FERTILIZERS

### Jackpot Flex 7-0-5

Our **All-Purpose Organic-Based Fertilizer** is specially formulated for summer turf applications, topdressing, and for tree, shrub and ornamental treatments. Provides disease suppression and curative properties on most turf and landscape varieties.

- » Two sources of Organic Matter - Exceptional Quality Biosolids and Class A Poultry Compost provide long lasting results
- » Biologically active Carbon based fertilizer that is rich in mineral, plant growth hormone and organic acid sources
- » Contains Ammonium Sulfate for quick green up, Sulfate of Potash with a low salt index and 6% Sulfur to promote disease resistance

**JACKPOT FLEX**

PREMIUM FERTILIZERS

### Jackpot 17-0-4

- » Systematically meters 5 sources of nitrogen for 90 days
- » Intense/fast green up
- » Apply to any turf type, any time of year
- » Reduces surge growth & disease resistance

Available with these combinations:

- » .37% Prodiamine
- » Dimension
- » Imida-Lambda
- » Mallet

**#1 SELLING FORMULA**

### Jackpot Starter 15-15-5

**Seed insurance!** Jackpot Seed Starter is formulated with six sources of nitrogen and three sources of phosphorous for optimal seed germination and new root development

- » Delivers a controlled, predictive, gentle release to safely feed new seedlings without fear of burning
- » Ample amounts of phosphorus for new seedlings
- » Potassium to provide complete nutrition for established turf
- » Extend phosphorous availability and help to reduce surge growth & disease pressure

**JACKPOT STARTER**

### Jackpot Breakout 21-0-5

- » Formulated to provide a rapid, intense color response in cool temperatures, early spring, and late fall
- » Excellent results in turf requiring higher rates of Nitrogen, i.e., Bermudagrass
- » Five sources of Nitrogen, 3% Iron, organic matter, and CPU for extended release and healthy deep green turf growth

**JACKPOT BREAKOUT**

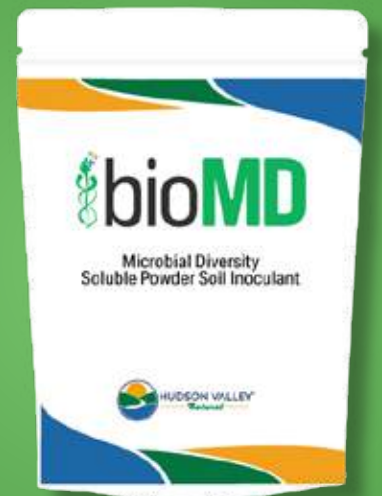

### BioMD Soluble Microbial Soil Inoculant

Combination of beneficial microbial strains, viable organic microbial food sources, essential enzymes, biomass activators and natural soil penetrators for hyper-rapid biomass animation.

- » No Refrigeration Required
- » Reduces Shipping Costs
- » Raises BRIX Levels for healthier, more resistant turf & plants

**bioMD**

# PREMIUM FERTILIZERS

Country Club® is LebanonTurf's flagship homogeneous and blended line for golf course superintendents and turf management professionals.

### Greens Grade (SGN 80)

- » 18-3-18 78% Meth-Ex Fe, Mg, Mn
- » 14-7-14 70% Meth-Ex Fe, Mg, Mn
- » 12-0-24 65% Meth-Ex Fe, Mg, Mn
- » 17-0-17 50% Meth-Ex Fe, Mn
- » 0-0-25 SOP Fe, Mg, Mn
- » Root Reviver 3-3-4 (SGN 100)

Country Club combines traditional high-WIN products with both next-generation MD (Maximum Dispersion) technology and trusted Composite Technology® granulation process.

### Fairway/Tee/Rough Grade

- » 17-0-17 100% Meth-Ex 100% Expo
- » 30-0-10 50% MESA SOP Fe
- » 40-0-0 100% Meth-Ex

**Leverage our Suppliers to customize your Turf Fertility Program. Speak to your Central Rep for more information about Greens Grades, Fairway Grades, Rough Grades & Solubles.**

Ask your Sales Rep for information on the complete line of Lebanon Fertilizers including those impregnated with Herbicides and Insecticides

### Supreme Green 12-0-0

**BRANDT**

#### FEATURES:

- » Contains 12% liquid nitrogen and a micronutrient package. Improves turf vigor. Nitrogen promotes consistent turfgrass shoot growth. Compatible with most fertilizers.

### Converge SRN 18-3-6

**BRANDT**

#### FEATURES:

- » Nitamin is applied directly to the leaf surface for rapid absorption and green-up
- » Low salt index and low levels of ammonia and biuret, it is a safe fertilizer solution
- » Due to its high N concentration, it stays soluble longer – delivering enhanced foliar uptake over an extended period of time
- » Compatible with a wide range of micronutrients and plant protection chemicals

### Converge SRN 30-0-0

**BRANDT**

#### FEATURES:

- » Nitamin is applied directly to the leaf surface for rapid absorption and green-up
- » Low salt index and low levels of ammonia and biuret, it is a safe fertilizer solution
- » Due to its high N concentration, it stays soluble longer – delivering enhanced foliar uptake over an extended period of time
- » Compatible with a wide range of micronutrients and plant protection chemicals

### Manni-Plex Ultra Turf

**BRANDT**

#### FEATURES:

- » Quickly supplies readily available N, Mg, B, Cu, Fe, Mn and Mo to turf and plants
- » Proprietary formulation coats leaves and sticks to the surface, making nutrients available longer. Ready-to-use liquid formulation
- » Compatible with most fungicides, insecticides and PGR's
- » May applied using ground equipment, through fertigation or as a soil drench

### Gary's Green

#### FEATURES:

- » Proprietary formulation provides fast nitrogen uptake; N promotes consistent turfgrass shoot growth
- » Phosphorus plays a role in plant metabolic processes that transfer energy throughout the plant
- » Potassium regulates primary physiological processes that impact turf response to stress and supports cellular processes that impact photosynthesis, water regulation, respiration and protein production
- » Recommended for golf and sports turf

### P-K Plus

**GRIGG**

#### FEATURES:

- » Phosphorus plays a role in plant metabolic processes that transfer energy throughout the plant
- » Potassium regulates primary physiological processes that impact turf response to stress and supports cellular processes that impact photosynthesis, water regulation, respiration and protein production.

### Sili-Kal B

**GRIGG**

#### FEATURES:

- » Calcium is important for cell wall strength
- » Potassium regulates primary physical processes that impact turf response to stress and supports cellular processes that impact photosynthesis, water regulation, respiration and protein production
- » Contains silicon dioxide (SiO<sub>2</sub>); silicon improves plant strength

### Ultraplex

**GRIGG**

#### FEATURES:

- » An effective, non-ionic organic surfactant.
- » Nitrogen promotes consistent turfgrass shoot growth. Potassium regulates primary physiological processes that impact turf response to stress and supports cellular processes that impact photosynthesis, water regulation, respiration and protein production
- » Non-ionic surfactant (Yucca schidigera) reduces water surface tension to improve foliar application wetting and absorption

WETTING & COLORING

### H2O Maximizer Wetting Agent

#### FEATURES:

Nonionic Soil Surfactant, Polymer Resin Blend

- » Soil surfactant and polymer resin blend
- » Tank mixed for spray application or injected directly into irrigation flow
- » Surfactant ingredients provide initial soil wetting action while polymer resin adsorbs to soil particles for enhanced water retention
- » Reduced watering requirements achieved for greater water holding capacity to guard against plant stress
- » Polymer resin boosts water retention in soil to deliver enhanced residual activity

### Tournament Ready Wetting Agent

#### FEATURES:

Premium Performance Nonionic Soil Surfactant

- » Uses a blend of three surfactant ingredients to provide flexibility in use as a preventative and curative treatment
- » Delivers rapid wetting of repellent soils, drives down surface moisture to avoid spongy turf
- » Delivers moderate residual for rewetting up to 14 weeks from initial application
- » Tournament-Ready will eliminate localized dry spot, provide more uniform wetting action, and enhance water's infiltration and drainage

### H2O Maximizer Pellets

#### FEATURES:

Hold More Plant Available Water W/ H2o Maximizer Pellets

- » Increase irrigation and rain efficiency by enhancing plant available water
- » Improve water infiltration and water holding capacity of soil
- » Remains active in the soil for 4-6 weeks, then bio-degrades into natural materials
- » Polymer resin delivers increased plant available water

### Tournament Ready Pellets

#### FEATURES:

Proven Tournament-Ready Formula In Solid Pellet Form

- » Treat small turf areas while hand watering using Underhill PelletPro applicator
- » Inert binder is carrier for metered hand watering application
- » Tournament-Ready Pellets help cool canopy temperatures of turfgrass during high heat, stress conditions
- » Pellet jar can be inserted in pellet applicator reservoir to modulate soil surfactant output

### Topcoat

#### FEATURES:

- » A soil wetting agent designed for direct spray-on application to highly managed turf and/or specialty crops.
- » Useful for managing difficult-to-wet soil environments such as areas of high traffic/compaction, steep slopes, and/or hydrophobic soils such as those associated with localized dry spot (LDS).
- » 1-2 applications per season at standard rates can typically deliver adequate performance for most problematic soil conditions.

# SPECIALTY PRODUCTS

INSECTICIDES

## STAY CONNECTED WITH YOUR SYSTEM

From time saving, mobile-friendly management platforms to field marking chalks, Central has you covered.

## LEARN MORE ABOUT SPECIALTY PRODUCTS

### Centralus™ BETA

The mobile-friendly Centralus irrigation management platform — currently available in beta phase — provides highly secure, comprehensive cloud-based control and monitoring features to new or existing ICC2 dial-based controllers and ACC2 controllers. The connectivity allows you to view a controller's status, change settings, view forecasts, save water, and receive instant notification of important system alarms — all without costly and time-consuming travel and site visits.

### BaseManager

The mobile-friendly Centralus irrigation management platform — currently available in beta phase — provides highly secure, comprehensive cloud-based control and monitoring features to new or existing ICC2 dial-based controllers and ACC2 controllers. The connectivity allows you to view a controller's status, change settings, view forecasts, save water, and receive instant notification of important system alarms — all without costly and time-consuming travel and site visits.

- Bottom outlet option

# GOLF ROTORS

**YOUR BUSINESS RUNS ON EFFICIENCY  
YOUR EQUIPMENT SHOULD TOO**

Hunter's patented TTS technology allows for every serviceable element of the rotor to be accessed through the top. Mechanical and electrical, big and small, you can get to every component without disturbing the playing surface. That means there's no more digging, no more unsightly scars, and more importantly, one less item on a busy superintendent's schedule.

**LEARN MORE ABOUT GOLF ROTORS**

Hunter Industries is a family-owned global company that provides high quality, efficient solutions for the irrigation, outdoor lighting, and custom molding industries. Our diverse array of products can be seen everywhere from residential landscapes, to stadiums, national landmarks, theme parks, city parks, commercial complexes, hotels, and municipal buildings around the world.

## TTS-800 SERIES

TTS-800 Series rotors provide maximum uniformity and longevity in the field. The high-torque gear drives are the strongest in the industry, so the challenges of reclaimed water use or poor water quality are mitigated. These rotors have Total-Top-Serviceability, powerful G-800 Series gear drives, and the largest flange compartment in the industry to accommodate all two-way module components.

## ACME ADAPTER FITTINGS

Hunter's ACME Bushing Adapters are available in a variety of sizes and configurations to fit your needs.

Choose Acme x NPT or Acme x BSP models to retrofit/adapt existing swing joints with standard threaded outlets to the Acme inlet threads used on Hunter rotors. Choose Acme x Acme models to convert the outlet sizing of existing Acme swing joints to fit your new Hunter golf rotors.

## RUBBER COVER KITS

Hunter Rubber Cover Kits provide a cushioned, non-slip surface for the exposed surface of the rotor. They are molded to seamlessly wrap the exposed area of the rotor without obstructing irrigation.

# GOLF CONTROL SYSTEMS

## ADVANCED CONTROL SIMPLIFIED BY INNOVATION

Hunter offers comprehensive golf irrigation solutions designed to simplify watering while ensuring healthy, playable courses. Pilot Command Center Software, Pilot Integrated Hub System, and the Pilot Field Controller System were all designed for the fastest, most efficient ways to program and control irrigation.

## LEARN MORE ABOUT CONTROL SYSTEMS

“ Meet your new must-haves in modern irrigation technology and efficiency. ”

The Pilot Command Center Software  
The Pilot Integrated Hub System  
The Pilot Field Controller System

## HUNTER PILOT COMMAND CENTER SOFTWARE (CCS)

**Hunter®**

Pilot Command Center software (CCS) is easy to use and has all the features you need to reliably and automatically water your course. Run times can be adjusted manually or determined automatically using ET. You create watering plans directly in the Command Center. A powerful irrigation planning tool that shows you every sprinkler on the course organized according to your management style.

The **HUNTER Pilot Command Center** organizes **all the information** you need for daily operations in one place.

- » WATERING STRATEGY
- » WATER & WAIT
- » HYDRAULIC MODEL
- » WATERING WINDOW
- » ET-BASED SCHEDULING
- » SYSTEM LIFE
- » REPORTS
- » OPERATING SYSTEMS
- » CONTROLLER PROGRAMS

### ADVANCED FEATURES:

- » MAPPING
- » WATER PLANNING
- » HYDRAULIC & ELECTRICAL PLANNING

## HUNTER PILOT INTEGRATED HUB SYSTEM

CONTROL SYSTEMS

Integrated hub systems are one of the fastest-growing forms of technology in irrigation control. A key advantage over field controller systems is that integrated hub systems use significantly less wire. This means lower costs, faster installation, and easier system diagnosis and repair if needed. Systems can be easily expanded — with minimal digging and disruption of landscaping — by adding more two-way modules (TWMs) instead of running additional wires.

### FEATURES:

- » Two-way modules are available with 1-, 2-, 4-, and 6- station outputs, making it possible to run each head on an entire green with a single device
- » Built-in surge suppression, color-coded wire connections
- » True independent station control, programmable station addresses, and two-way feedback to the hub with confirmation and status indication

### ADVANCED FEATURES:

- » WATER RESISTANT KEYPAD
- » DIAGNOSTIC LED INDICATORS
- » 250 STATION OUTPUT MODULE

## HUNTER PILOT FIELD CONTROL SYSTEM

The Pilot field controller manages up to 80 stations in 10-station increments. The full-featured controller has everything you need in a stand-alone field controller.

### FEATURES:

- » Five Languages
- » Up to 80 station outputs in 10-station increments
- » Up to three Hunter golf valve-in-head rotors per station output
- » Up to 20 simultaneous Hunter golf valve-in-head rotors active per controller
- » 32 automatic schedules with eight start times per schedule
- » Exclusive Safe-Toggle™ mechanical on-off-auto station switches
- » 1-31 day skip-day scheduling
- » One-touch rain shutdown up to 30 days or indefinitely
- » One-touch Safe-Pause™ with 30-minute safety timer
- » 1-300% run time seasonal adjustment
- » Seasonal start time adjustment is used to quickly change all start times plus or minus 30 minutes

### ADVANCED FEATURES:

- » WATER RESISTANT KEYPAD
- » DIAGNOSTIC LED INDICATORS
- » EASY TO SERVICE
- » MODULAR 10-STATION EXPANSION BOARDS
- » SPACIOUS WIRING AREA

PUMP STATIONS

# GOLF PUMP STATIONS

WHEN YOU NEED THE BEST OUTCOME.  
START WITH THE BEST SOLUTION

Pump Stations are designed to save you  
time, water, energy, and labor.

LEARN MORE ABOUT PUMP STATIONS

### Vertical Turbine (VT) Pump Station

Watertronics Vertical Turbine Pumping Systems are engineered and built specifically for each customer and can meet virtually any flow and pressure requirements.

### Horizontal Centrifugal (HC) Pump Station

Watertronics Horizontal Centrifugal Pumping Systems (HC) are versatile and reliable and have become the backbone of irrigation within the Sports Turf and Golf Course markets.

#### VERTICAL TURBINE PUMP STATION

The Vertical Turbine Pump station is a good choice for surface water applications. It can produce high flows (3,000+gpm) and high pressures (150+psi) and has a long life and lower long-term maintenance costs. The pumps never need priming and it has excellent energy efficiency. It can be built with a self-cleaning filter option. Most sizes can be easily enclosed, eliminating the need for a pump house.

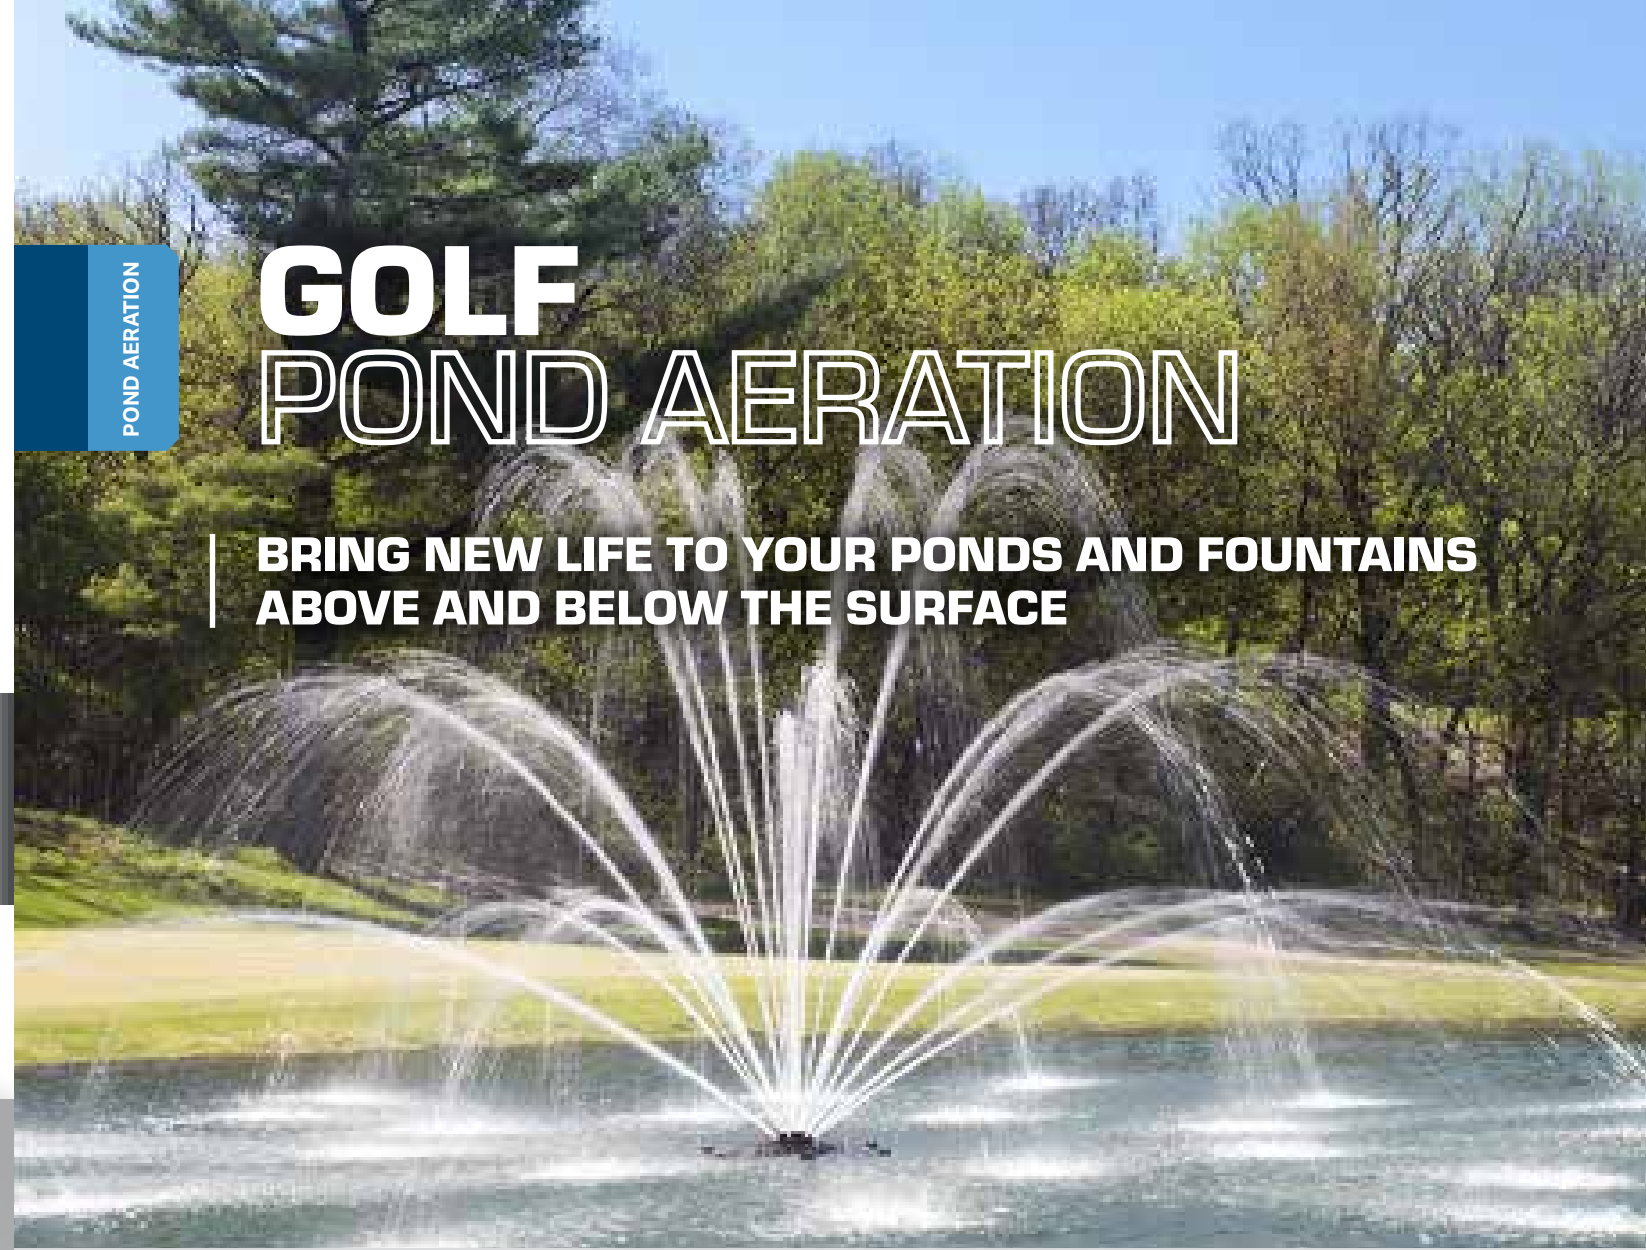

#### HORIZONTAL CENTRIFUGAL PUMP STATION

The Horizontal Centrifugal station is a good choice for high-flow booster applications such as large parks or golf courses. It has the lowest cost option for surface water applications. This station can be outfitted with automatic an priming system for suction lift applications. It has lower maintenance costs than a turbine system and can be built with a self-cleaning filter option. Most sizes can be easily enclosed, eliminating the need for a pump house.

POND AERATION

# GOLF POND AERATION

BRING NEW LIFE TO YOUR PONDS AND FOUNTAINS ABOVE AND BELOW THE SURFACE

8400VFX 8' Tall x 32' Wide      5.1 & 5.3VFX 9' Tall x 34' Wide

## DIFFUSED AERATION SYSTEMS

### Otterbine Air Flo 3

- » Subsurface aerator with no parts of the system visible on the lake's surface.
- » Backed by an all-inclusive 3-year comprehensive warranty, a 5-year warranty on the diffuser(s), a 5-year Warranty on the cabinet, and a 15-year warranty on the tubing.

### Kasco Diffused Air Systems

- » Kasco is a world-leading manufacturer of decorative and aerating fountains, surface and diffused aeration systems, municipal products, circulators, de-icers, and beneficial bacteria.
- » Common applications include residential ponds and lakes, water treatment plants, retention ponds, docks, marinas, fish farms, and more.

## CIRCULATORS

### All-In-One Fountain & Circulator Series

- » The Fractional Series Aerating Fountain and Mixer all-in-one system allow you to easily convert between any of the five configurations that come standard in just minutes;
- » This light weight, versatile, turn-key unit can easily be handled by one person and moves an impressive 500 GPM (115m<sup>3</sup>/hr)
- » Supported by an all-inclusive 3-year warranty.

### Kasco Circulators

- » Efficient / Low Power Use: Highest efficiency design for low power consumption versus competing units. Reduces operating costs over the entire life of the unit.
- » Rugged Motor: Environmentally friendly design with a hard-face internal mechanical seal and external lip seal for protection against leaks.
- » Corrosion Resistant: Superior dependability in salt-water or other corrosive environments. All external metal motor, float, and hardware components are of stainless steel composition and protected by a sacrificial zinc anode.
- » Battery powered model also available for distributing pond water treatments.

### Brandt Blue Lagoon SS

#### FEATURES:

- » BRANDT's flagship aquatic colorant provides a nice, even shade of blue throughout the body of water. It is a bird blocker formulation designed to darken water sufficiently to protect against fish poaching in aquaculture environments.

### Brandt Loch Ness SS

#### FEATURES:

- » BRANDT's famous black formulation has a rich, dark and clean appearance in water. Designed for shallow, muddy ponds and lakes and creates a mirror effect.

### Brandt T.A.C. Algaecide

#### FEATURES:

- » Proprietary copper sulfate algaecide/bactericide. Provides quick and effective knock down in lakes, ponds, reservoirs, canals, lagoons and other water systems. Helps suppress odors and gases.

# GOLF TOOLS & EQUIPMENT

**WE'VE GOT YOU COVERED WITH THE TOOLS AND EQUIPMENT YOU NEED.**

If you are looking to purchase new, more efficient equipment Central has what you need! From locators, to spreaders, sprayers, and hand-tools we are your on-stop-shop for lawn care equipment.

**LEARN MORE ABOUT TOOLS & EQUIPMENT**

## LOCATORS

### PE2003-G Pulser Fault Locator

**FEATURES:** —————○

- » Identifies the exact location of even the smallest breaks in buried wire and cable insulation by "pulsing" a high-voltage signal that radiates into the ground at the location of the faults
- » With the A-frame mounted receiver, a visual analog meter points the way to the source of the voltage

### 24BK Irrigation Tester Kit

**FEATURES:** —————○

- » The upgraded Station Master Pro is a portable, battery-operated irrigation system diagnostic tester combining solenoid activation and wire identification.
- » The LEDs are easy to understand & indicates if sufficient voltage is supplied by the controller and the condition of the solenoid
- » In chatter mode the Station Master Pro will turn the solenoid on and off, about once per second, to aid in locating a valve by ear
- » Provides tone generation to identify wires which can be traced with any TEMPO amplifier probe

### 521A™ Wire and Valve Locator

**FEATURES:** —————○

- » A universal troubleshooting and maintenance tool for electrically controlled sprinkler irrigation systems
- » Easily locate underground wires and valves, including wire path and depth.
- » The 521A can also pinpoint underground wire breaks, large nicks, and solenoid valves. The high-power, adjustable transmitter offers an extended range and allows the user to select the best signal for maximum performance.

### Pro95i™ True RMS Irrigation Milliamp Clamp Multimeter

**FEATURES:** —————○

- » The ultimate milliamp clamp meter for 2-wire irrigation system troubleshooting and diagnostics. The Pro95i™ is that meter. The Pro95i™ features True RMS technology, making it more accurate than how most meters are averaging. The Pro95i™ is also extremely fine in its resolution and is able to measure to 1/1000th of a milliamp. We've added a high resistance capability, with resistance measurements up to 600kOhms. For convenience, the Pro95i™ is auto-ranging, so a user doesn't need to guess at what level to select a range of values to be sensitive to.

HUSQVARNA

Rear Handle Chainsaw

FEATURES: |—————|○

24 IN Hedge Trimmer

FEATURES: |—————|○

- » 40 V
- » 4,000 cut/min cutting speed

Double Sided Hedge Trimmer

FEATURES: |—————|○

- » 24 inch knife length
- » 11.2 lbs total weight

String Trimmer

FEATURES: |—————|○

- » 18.1 in cutting width
- » 10,500 rpm max power speed

String Trimmer

FEATURES: |—————|○

- » 19.3 inch cutting width
- » 1.34 horsepower output

### Hudson Valley Natural Spreader

#### FEATURES:

- » High-Capacity Commercial Spreader
- » Available in Stainless Steel or Black Epoxy Paint finish options
- » 1.3 Cu. Ft. hopper capacity
- » Push with ease
- » Lubricant encased in large gearbox

### Turfware Spreader

#### FEATURES:

- » Features hinged plate for conversion from fertilizer spreading to high volume application
- » It is designed for the application of seed mulch, topdressings sand, ice melt, limestone, or other high-rate products
- » Positive on/off system, factory calibrated, self-lubricating GS gears
- » Nylon 6/6 wheel and axle bearings w/grease fittings
- » Stainless Steel axle, frame, handle and fasteners
- » 13" turf tread pneumatic tires, rustproof rims

### Hudson Valley Natural Sprayers

#### FEATURES:

- » Hand-Held and Backpack Sprayers
- » Increase on-the-job efficiency
- » Built to perform for more than 1 million spray cycles
- » No leak design

### Replacement Parts

#### MOWER BLADES, EDGER BLADES, AIR & GAS FILTERS, OIL & MORE

For all common brands, including:

- » Jacobsen
- » John Deere
- » Toro
- » Exmark
- » Ariens
- » Grasshopper

### Flowzone Sprayers

#### FEATURES:

- » Rechargeable 18V/5.2A-h Li-Ion battery
- » Pressure range of 8 psi up to 115 psi
- » ComfortStraps backpack system
- » Pressure washer style spray gun with quick-connect attachments
- » Black UV-resistant hose
- » 30 foot spray distance - up to 3 hour spray time

### Permagreen Ride-On Sprayer/Spreader

#### FEATURES:

- » The PermaGreen Triumph Spreader/Sprayer and Spread-Only feature the revolutionary patent-pending PermaGreen Agitator™ System, which provides a clog-free, consistent flow of your dry turf care products, including fertilizer, ice melt, and seed. The Triumph also features a tighter turning radius and added traction from wheel weights, making it the most maneuverable PermaGreen™ made to-date.
- » The PermaGreen Agitator™ System also works wonders for any PermaGreen Magnum, Triumph or 3-Hole LESCO® spreader (order part # T422400).

OUTDOOR AUDIO

ULTRAPRO-T 100 +A.1X

- » VSSL X Series, single zone, 50W, w/Chromecast built-in, Airplay 2, and Spotify Connect
- » T100: 2-Channel, 100W per Channel Power Amplifier. Incl. IR receiver
- » (4) 4.5" Outdoor landscape speakers
- » (1) ULTRAPRO 10" Burial Subwoofer

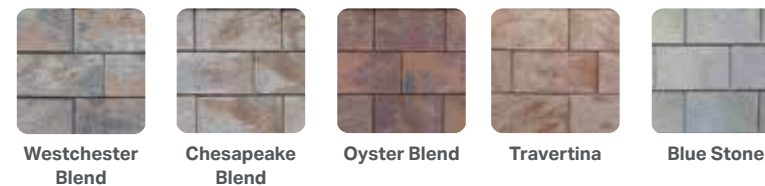

With our one-stop shopping approach, and fully stocked warehouses, you are able to enhance all your outdoor living areas while staying on budget and on time.

FIRE PLACES AND FIRE PITS

- » Everything is pre-cut and ready for assembly
- » Multiple color options and configurations
- » Packages include dimensions, material lists, and contractor drawings

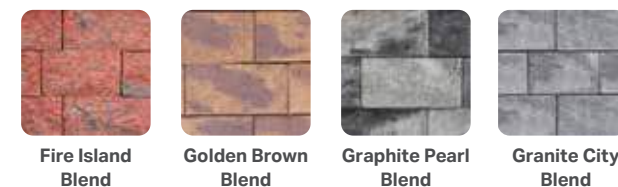

Sample Colors:

PAVERS AND WALL SYSTEMS

Regardless of the space and application need, we have a paver solution. Focused on quality and performance, we offer a wide variety of colors, patterns, sizes and textures to handle the project and enhance your customers' outdoor spaces. We carry pavers that will not expose heavy aggregate as they wear. The ultra-dense surface has more color and more protection, ensuring a lifetime of beauty with minimal maintenance. We also offer a variety of wall systems for any project: landscape walls, retaining walls, and garden walls.

Sample Colors:

HARDSCAPE ACCESSORIES

SEALERS

- » Extend paver life
- » Easy to apply
- » Protect paver appearance from water intrusion, deicing chemicals, and freeze/thaw exposure

PAVER WASH

- » Opens surface pores for optimal bond with sealer
- » Restores original paver color
- » Use on Concrete/Clay Pavers

RUST ELIMINATOR

- » Removes rust and hard water stains
- » Rinses clean with water
- » Use on Pavers/Concrete/Clay/Brick/Granite/Bluestone

# CENTRAL REWARDS PROGRAM

INDUSTRY  
LEADING  
**REWARDS  
PROGRAM**

## **COMMERCIAL SERVICES + LARGE-SCALE DESIGN SUPPORT**

Professional support for projects of all sizes, from bidding through closeout using the latest software and training.

### **LARGE SCALE PROJECT SUPPORT**

Knowledge you can depend on.

Large projects require specialized coordination of information, materials, and services. Our highly experienced team offers smart solutions to meet your complex project needs.

Take advantage of our value-added services that include:

- » Project Leads
- » Professional Irrigation/Bid Designs
- » Take-Offs/Quotes
- » As-Builts
- » Submittals and more

### **UTILIZE OUR CUSTOMER PORTAL**

- » 24/7 Customer Access
- » Easy Project Submission
- » Faster Project Turn-Around
- » Project Tracking
- » Simple User Interface
- » Mobile Enabled
- » Submittals and more

**CENTRAL OFFERS THE  
MOST FLEXIBLE AND  
REWARDING LOYALTY  
PROGRAM TO THEIR  
CUSTOMERS.**

Earn points with all of your purchases: irrigation, lighting, turf and equipment products. Points can be redeemed toward your choice of rewards.

**\$1 = 1**

**\$ Purchased equals point**

**EASY TO DOUBLE**

**Ask about opportunities  
to double points**

**EASY TO EARN**

**\$100 in purchases  
equal 100 Points**

**EASY TO REDEEM**

**5,000 points equals  
\$50 gift card**

# BENEFITS

## OF THE CENTRAL REWARDS PROGRAM

Access to resources to drive your success ♦ Automatically enrolled in the program

♦ NEW ♦

### BUSINESS SAVINGS + DISCOUNTS

Resources and discounts to save money with companies like ADP, UniFirst, UPS, Office Depot, Constant Contact, Ace Hardware, and Penske.
